

52
l/min

230
VAC

➤ **USE**

- Centrifugal self-priming pump with JET-venturi system with high suction capacity for AdBlue/DEF even with small amounts of air-gas in the water.
- It is suitable for home applications, pressure groups, garden watering, washing, etc.
- Compact and noiseless pump with high suction power
- For suctions higher than 4 m, it is advisable to install a suction pipe higher than 1".

➤ **OPERATION**

Fluid: clean water, AdBlue/DEF
Minimum/maximum liquid Temperature: -5 °C / +40 °C
Maximum working pressure: 3 bar
Maximum suction height: 8 m

➤ **TECHNICAL FEATURES**

- Flow: 22-52 l/min
- Maximum pressure: 3 bar
- Motor: 0.37 kW 230 VAC 50 Hz · single-phase · self-ventilated
- IP-44 protection
- 2,800 rpm
- Consumption: 2.1 A
- LeqA(dB):72
- Inlet/Outlet connection: 1" GAS BSP
- ON/OFF Switch
- 2 m electrical cable with approved plug
